NOTICE

Power outages and electricity meter replacement

IMD Sverige AB has been assigned by Brf Kandidaten to replace all electricity meters within the association and introduce individual metering and billing. The electrician performing the work is MITAB and they do NOT need access to your apartments but we would like to inform you about the fact that the work involves a total power outages according to the schedule below:

S:t Johannesgatan 36A

Tuesday November 18th between 09:00-15:00

S:t Johannesgatan 36B

Wednesday November 19th between 09:00-15:00

S:t Johannesgatan 36C

Thursday November 20th between 09:00-15:00

We do NOT need access to the apartments but please note that stairwells and apartments will be without power, which will affect elevators, lighting, internet, landline telephony, refrigerators and freezers, that will not work during the power outage!

If there is anything you need to inform us about before the planned work, or if you have any questions, you are most welcome to contact us primarily via email avisering@imd-system.se and in second hand by phone 010 202 28 60. Please state "Kandidaten", apartment number and your address in the subject field of the email.

Thank you in advance, and with hope for good cooperation!

Best regards,

IMD Sweden AB

Useful information!

Property electricity:

Your electrical switchboard will be rebuilt and adapted for individual metering and according to the schedule, ALL electricity will be cut off one day per stairwell so the electrician can work without risk during the construction. **NOTE! This also affects elevators and lighting in the stairwells!**

Current electricity:

You don't need to cancel your current electricity subscription! It is handled and done automatically by us and Vattenfall.

Tv and Internet:

When we cut off the power in the apartment, network equipment and TV are also affected..

Alarm:

If there is an alarm in the house or in any apartment, the alarm operator must be informed in advance.

Refrigerator:

A refrigerator can keep food cold for up to 8 hours, provided the door is kept closed.

Freezer:

A freezer can keep things cold for up to 8 hours but must not be opened under any circumstances during this time. the power outage.

Oven:

If your oven doesn't work after the power outage, try setting the oven's clock.

Technical equipment:

When the power goes out, it is like a "normal" power outage. If there is any equipment that cannot withstand this, there must be people on site and turn off the equipment properly. This applies to both members and the association!
